

Climate Litigation Law Review Articles: Selected Bibliography

The Climate Judiciary Project identified the following law review articles to guide learning about climate science issues raised in climate litigation, as well as the trends, parties, claims, and defenses. The information provided here is not intended to be comprehensive. It is intended to familiarize judges with common legal and scientific issues they can expect to see as climate cases enter the courtroom. The document will be updated periodically. Last updated: October 28, 2024.

The views conveyed in these articles should not be attributed to the Climate Judiciary Project, nor should any official endorsement by the Climate Judiciary Project be inferred based on the inclusion of any article. The information contained in this document was collected from many and varied sources.
